Dear Francesca Matrone,

Thank you for completing the resubmission of your paper "ARTIFICIAL NEURAL NETWORKS FOR SEMANTIC SEGMENTATION OF BUILT HERITAGE POINT CLOUDS" for ARQUEOLÓGICA 2.0 & GEORES. Let us confirm that in its present form, the contribution is valid for being included as a scientific paper in the Proceedings but not for the Virtual Archaeology Review (VAR). Please confirm as soon as possible, replying to this email, which option you prefer:

1. Proceedings;
2. Extended paper for VAR plus Extended Abstract (1 page) for the Proceedings.

For option 1, the paper will be accepted (usually with minor comments) and the copyediting stage will continue.

For option 2, please take into account the following points:

- Extend your Abstract up to 300 words.
- Enlarge figures to two columns, e.g. Figs. 2 and 5, in a way that all the content is readable.
- Follow the VAR template.
- Upload the rebuttal.

Once finished, upload your extended paper (in .DOCXS) at <https://polipapers.upv.es/index.php/var/> up to 24 March. In the author comments tab, please clarify Best Paper ARQUEOLÓGICA 2.0 & GEORES. In addition, please resubmit the Extended Abstract (in .DOCXS), in its present template, at <http://ocs.editorial.upv.es/index.php/arqueologica20/arqueologica9/> before 20 March, plus the 'Statement of Work'. Keep in mind that the title and abstract should be different in both submissions. We will include in the Extended Abstract a citation of your paper in the VAR.

Looking forward to your participation in this event.
