## PHD DAY FOR COMPANIES 2021

# DAUIN PHD DAY 2021 FOR COMPANIES

Politecnico  
di Torino

Department of Control and  
Computer Engineering

November 24<sup>th</sup>, 2021 2.00PM – 5:00PM LIVE ON **zoom**

Following the success of the DAUIN PhD Day in the last years and after the first 2021 in-person event targeted to Politecnico di Torino's students and staff held in October this year, the students of the PhD Program in "Computer and Control Engineering" at DAUIN are glad to present and promote their cutting-edge research results during the "DAUIN PhD day for Companies 2021".

In the event, about 50 students enrolled in the 2nd and 3rd year of the PhD Program are ready to virtually meet on Zoom with experts from companies or other research institutions to present their work, answer questions, and create the ground for future collaborations.

A collection of videos has been prepared by the students, to give an overview of the research activities carried out at the Department by each one of them. If you are interested in a specific topic, students will be available during the event in dedicated Zoom rooms at the links provided below.

### AGENDA

Zoom link:

<https://polito-it.zoom.us/j/82241386102?pwd=eWx5aGR4d0VuR2hSTStoekgwU0hYdz09>

2.00pm - 2.10pm - Welcome

Prof. Elena Baralis, Head of the Department of Control and Computer Engineering

Prof. Fabrizio Lamberti, Chair of the PhD Program in "Computer and Control Engineering"

2.10pm - 5.00pm - Discussion rooms with PhD students

Details below

5pm - Closing

### PARTICIPANTS

Talal Abdalla  

## 35 Fabio Cermelli
