Hello! Congratulations on your Award from the Design Engineering Division and Advanced Vehicle Technologies for the StudentBest Pape at the 22nd AVT Conference. On behalf of the DED and AVT, we are excited to recognize you for this award.

This award received a plaque and a shared \$500 honorarium. Due to the pandemic, ASME Staff are working from home and we are unable to provide plaques at this time. When we return to the office, a plaque will be sent.

Regarding the honorarium, I would like to send the required paperwork to Massimiliana so that the honorarium can be sent to and then shared with you all in whatever way you all find easiest. If you have any questions or concern, please let me know.

Thank you!

Barbara Zlatnik, CAE
